Ice climbing in Lyngen

Ice climbing in Lyngen is truly a unique opportunity. Our certified guides make it happen that literally anyone can try this exciting activity. No previous experience needed. Choose if you want a pick up from Tromsø or if you like to start from Lyngen.

A truly unique opportunity! Hike with us through ancient winter woodlands, and try Ice climbing on a frozen waterfall. On all our climbing trips we use a secure technique called top-roping. This means that together with our certified guides, ice climbing can be done by literally anyone. No previous experience needed.

To ensure personal follow-up we keep our groups small at 6 persons maximum. Its therefore advisable to book well in advance.

Requirements

Guests are expected to be in normal physical shape. There is a 1.3 kilometer hike on snow required each way, and even though ice climbing is a sport where technique beats brute force, it can get tiring.
